4410-2

TO: John Reinhardt

FROM: Gary F. Kulibert

SUBJECT: Lehrer Landfill Site

This is to confirm our meeting on July 31, 1975, with Jim Lehrer, his consultant - Ted Harris, and representatives of the District and Bureau. This District is recommending that an order be issued to Jim Lehrer requiring him to submit to our Department a feasibility study and complete engineering on his landfill site. It should be noted that Mr. Lehrer has submitted engineering in conformance with a previous order; however, this engineering was not sufficient. Provisions of this order have been discussed previously with Bob Glebs.
